TUESDAY, March 27-P. N. The Stock market to-day has been fairly active, and

pregular-the tendency, however, having been to improvement. The Albany incubus still has an unfavorable influence upon Central, with which the whole market sympathizes more or less; but the disposition of speculators is evidently to operate for the rise rather than the fall, and there is no prominent bear to oppose the market. The leading stocks to-day were Pacific Mail and Toledo. The former was unusually active, the registered sales adding up 1,200 shares, and selling as high as 100, buyer ten days. The friends of this stock confidently predict a dividend of 15 F cent in May, and par for the stock soon after, dividend off. Toledo, under the largely-increased reseipts, was in active demand, and advanced during the day to 25 against 231 yesterday. Some of the most prominent bulls are moving in this stock as one of the cheapest on the list. Central was beavy, under the impression that the Legislature will yet pass some kind of a toll bill, and sold down to 74]. The Western shares were without important change, but generally strong. The movement in the Michigan Southern issues is still active, and the quotation for both descriptions is firmer. The Old sold at 12, and zhe Guaranteed at 241. The reform clique, it is understood, control the stock, and will make the change they desire at the coming election. The scheme of reorganization appears to contain all the elements of success. In other Western shares there was not much change. At the Second Board the transactions were not very large, and the variations were not important. In the Bond market prices were well sustained. Michigan Southern Second Mortgage were in demand, and firm. The Erie issues were also firm. For Michigan Central 8s, 961 was bid. Missouri 6s were 81 at the morning session, but were heavy in closing transactions, selling at 80]. The market was very steady after the regular session of the Second Board, at the following prices: Missouri 6s, 80% 280%; Canton Company, 204 @21; Comberland Coal, 132 @14; Pacific Mail, 99 @ 100; New-York Central Railroad, 74; @74]; Erie, 91 € 10; Hudson River, 381 € 381; Harlem, 91 € 92; Harlem Preferred, 341 @ 342; Reading, 414 @ 412; Michigan Central, 414 @ 413; Michigan Southern and Northern Indiana, 11; 212; Michigan Southern and Northern Indians Guaranteed, 24 @ 244; Panama, 133) @134; Illinois Central, 60] @ 60]; Galens and Chicago, 601 2601; Cleveland and Toledo, 24; 225; Chicago

In foreign bills, the transactions for the present steamer have been moderate, and quotations scarcely sustained. The market closes heavy, with a good supply of outside bills. Sterling is 108] @108], with les of bank bills as low as 108;. Francs are also

and Rock Island, 65 @ 651; Illinois Central 7s, 901 @ 91.

In Freights, to Liverpool, 150 bales Cotton at 9-32d. 10 bales Sea Island Cotton at 7-16d.; 400 bxs. (per steamer) at 40s.; 50 tes. Beef at 3, 6d.; 100 bxs. Bacon on private terms; 100 bbls. Lard at 22s. 6d.; 250 bbls. Roein at 2s. 6d.; 50 hhds. Tallow on private terms; 40 firkins Butter (per steamer) at 40s. To Liverpool, 100 hhds. Shoulders at 25s.; 100 bxs. Cheese at 40s.; 30 bxs. Bacon at 27s. 6d. To Bremen, 450 bales Cotton at id. A vessel from Pernambuco to Buenos Ayres with Lumber at \$21 \$7 1,000 feet. A schooner of 100 tune to St. Domingo and back at \$1,050.

The business of the Sub-Treasury was: Receipts, \$148,304 89; for Customs, \$146,000; Payments, \$71,-102 12; Balance, \$8,020,608 49.

The details of the carnings of the Galena and Chicago Union Railroad for the week ending March 22, were:

The business of the Clearing-House to-day \$22 302,041. The gross receipts of the Eric Road thus far in March are \$90,000 ahead of the same period of 1859. The Rock Island Directors have again adjourned to to-morrow for lack of a quorum. The dividend will probably be 3 or 3; & cent, with a large contribution to the Sinking Fund, raising it to about \$200,000. The means are in hand to pay a still larger dividend, but the Company desire to recommence the payment of dividends at a rate which the current traffic of the road will enable them to continue. The proceedings for the foreclosure of the First Mortgage Bonds of the Milwankee and Mississippi bonds have been suspended. A dispatch from Washington, received to-day, states that the Supreme Court of the United States has affirmed the decision of Judge M'Lean, made some years since, sustaining the validity of the indorsement of the bonds of the Piqua and Columbus Road by the Cleveland, Columbus, and Cincinnati Road. The amount involved is \$400,000.

The annual report of the Delaware and Hudson Canal Company has been published, and shows a net earning of 81 P cent against 51 P cent in the previous

year. The Managers say:

The Board of Managers herewith submit the usual Annual Statement of the business of the Company for the year ending on the 1st inst., showing a net profit of \$618,210 76, being about \$\frac{1}{2}\$\frac{1}{2}\$ cent on the capital stock. The Canal was opened, in 1859, on the 28th day of April, and closed on the 7th day of December—navigation having been interrupted by breaks during this period, only \$\frac{1}{2}\$ days. The whole amount of tolls received was \$311,597 79. This, it should be remembered, is exclusive of the additional tolls claimed to be due from the Pennsylvania Coal Company, under the due from the Pennsylvania Coal Company, under the agreement of 1847, on account of the enlargement of

In the early part of 1859, a bill was passed by the In the early part of 1853, a bill was passed by the Legislature of Pennsylvania, giving this Company the right to purchase and hold 3,000 acres of land in addition to the 5,000 acres it was authorized to hold by the original grant; and also the power to construct all needful roads, to connect the same with the then exist-ing works of the Company. Availing of this au-thority, a considerable body of valuable coal land was

purchased during the past year.

It was also deemed advisable to construct, without delay, an extension of the Company's railroad, from its previous terminus to a point within one mile of Scranton, a distance of about 41 miles. This extension is now nearly completed, and will be ready for use on the 1st of May next.

The work upon the new dock at Weehawken The work upon the new dock at Weehawken has been prosecuted as rapidly as possible, but it will be yet some months before it can be safely used. The entire cost of this improvement, when completed, will be nearly or quite \$300,000. To provide the necessary funds for this work, and for the extension of the Railroad referred to, with the required equipment for a larger business, the Board have autherized the issue of coupon bonds to the amount of \$600,000, having 10 years to run, and bearing interest at the rate of 7 P cent per annum. These bonds will be disposed of from time to time, as needed, at not less than par—preference being always given to applications from stockholders who may desire to invest in this way.

invest in this way. Since the 1st of March, 1855, there has been expended in extensions of the Railroad and other improvements called for by increasing business, the sum of \$1,698.845.33. The whole road now is of a solid and permanent character; its capacity for transportation has been increased from 500,000 to 1,200,000 tuns per annum, and it has been extended to a point as far from the Canal as the operations of the Company will prob-ably ever require. The entire cost of these equipments, with the exception of \$300,000 borrowed in 1858, has,

up to this time, been provided for out of the current earnings of the Company.

When the Bonds, now proposed to be issued, shall be disposed of, the whole bonded debt of the Company will be \$1,500,000. A sinking fund has been estab-lished, to which, by a resolution of the Board, there will be contributed each year out of the earnings of the business an amount equal to 1 \$\delta^\*\$ cent on the capital stock. The sums thus appropriated, with the accumulating interest, will be ample to provide for the payment of the debt as it matures. During the past year,

\$75,000 was thus set aside and securely investigated and the Company for the Year ending March 1, 18 pands.	sted.

	In making the improvements in the railroad referred to in the Report, it became necessary to abandon sev- eral miles of the old line of road. The account will, at the proper time, be credited, with the value of the property so abandoned, now estimated to be about

\$150,000. When this is done, the profit and lose account will, of course, be correspondingly diminished. The other construction accounts generally represent values considerably greater than the amount with which they stand charged.

Adams Express, says: " Business of almost every kind moved along to-day (22d), but we have heard of no important addition to operations in any department. Exchange was in bet-ter request, and, with limited offerings, reflers realized slight advance on most descriptions. Transactions, owever, were limited in both Foreign and Domestic. Money continues in active demand, and there is an unmistakable tendency to higher rates of discount. Offerings at bank are still heavy, but the anxiety to realize is more noticeable on the street. The very best paper on the market could not be sold to-day at previous figures, and transactions in the lower grades could hardly be effected upon any terms. Stocks and Econes are at a stand and we have not been advised. Bonds are at a stand, and we have not been advised fonds are at a stand, and we have not been advised of an operation in any description. Offerings are am-ple and prices of some securities low; but during the present stringency in the money market, there is a larger margin for profits in judicious purchases of a larger margin for profits in judicious purchases paper than any other investment is likely to afford.

Yesterday, in the Supreme Court of Pennsylvania, sitting in Philadelphia, return was made to the mandamus directed to the Councils of Pittsburgh, requiring that hody to key the necessary tax to pay the interest on the bonds to the various Railroad Companies. The Select Council returned that they had complied with the writ by passing an ordinance authorizing the assessment. A majority of the Common Council having refused concurrence, the minority of the body returned that they had done all that they could do by voting in favor of the ordinance of the Select Council, wished to be considered as occupying the same ground as the Select Council, which had pussed it. One of the Councilmen having resigned his seat before the service of the mandamus, returned that fact as exonerating

bim. The majority of the Common Conneil, as reasons bim. The majority of the Common Connoil, as reasons for their seeming contumecy, return that they are not advised of the amount of interest which is claimed to be due and cwing. That they are only a branch of the legislative authority, and vested with a deliberative caracity alone. That acting, as they are, upon their oaths of office, they cannot in conscience undersike to levy and ascess a tax on their constituents against their own judgment. That they cannot obey the mandate of the Court, except under such circumstances as would deprive them of the exercise of their free judgment in the premises. They profess, however, entire willing bess to surrender their trust to their constituents, to be delegated anew, at their pleasure, to such persons as may conscientiously accept it. such persons as may conscentiously accept it. These returns elicited some conversation between counsel and the Court, and the true of the proceedings were esteemed favorable by the bundholders, who are disposed to consider the action of the authorities of Fittsburgh as a gradual yielding to the mandamus of the Court.

The Indiana State Auditor's report for 1859 shows an important increase in the taxable valuation of the The valuation is as follows:

The total valuation of all taxable as returned in 1808, is \$435,868,962
In 1866 it was. 318 204,964 Total increase. \$117,032 838

The number of acres appraised in the State is. 22,119,39:

The average value of lands and improvements \$\frac{1}{2}\$ acre throughout the State is. \$\frac{1}{2}\$ \$12.55

The number of miles of railroad assessed is 1,749

24-100, at a valuation of \$12,951,405. John McCave has sold 6 lots on north side of Onehundred-and-eleventh street, between Third and Fourth avenues, for \$650 per lot; also one gore lot on south side of One-hundred-and-twenty-sixth street, between Eighth and Ninth avenues, containing about 315 square feet, without any street front, for \$300.

We are indebted to Edward Bill's Circular for the

ste demand, and is firm: sales of 170 bbls, at \$3 50 6 83 60 for Jersey. Buckwheat Flour is in fair demand at \$6 10 5 4 \$1 75 \$\frac{1}{2}\$ 100 fb.

FISH—The market is quite dull, and heavy for Dry Cod. We hear of sales of 1,000 qtls. St. George's Barna at \$4 50. Mackerel are also lower; sales of 600 bbls. No. 1 Mass. at \$4 50. Mackerel are also lower; sales of 600 bbls. No. 1 Mass. at \$4 50. Mackerel are also lower; sales of 600 bbls. No. 1 Mass. at \$4 50. Mackerel are also sales of 100 break to the sales of 5000 boxes. The anction sale of John Froman's exporesuited as follows: 3,550 boxes Falermo Oranges at \$2 1500 \$2 35, and 1,500 do Lemons at \$2 1500 \$2 35, cash.

GRAIN—The Wheat market is without important variation; the demand is limited, confined chiefly to Western; Spring is generally held above the views of buyers; the sales embrace 200 bush. choice & 64 Michigan at \$1 50, 360 bush, prime White do. at \$1 65, 400 bash, prime Canada Club at \$4 14 and 900 bush. Racine Spring at \$1 20. Oats are dull and heavy; the arrivals are liberal; sales of Western and Canadhan at \$4 340, and State at \$4 344 6. Barley is more active, and prices are steady; the sales are \$9,500 bush. State at \$500 \$4, —the latter for Choice; and 2 500 bush. Lake Shore at \$2 5.00 bush. Earley Malt is in limited demand at \$650 \$200. Right heavy; small sales at \$550 \$600. Corn is more active; the low grades are firmer, but prime White and Yellow 25 \$600 to 10 prices of \$600 bush. Sales of \$7,500 bush. as \$712 72c. for Western Mixed; 15 477c. for Jersey and Southern—inclinded in the sales are \$1,000 bush. Prime White for export; sales of \$7,500 bush, as \$712 72c. for Western Mixed; 15 477c. for Jersey and Southern—inclinded in the sales are \$1,000 bush. Prime White for export at 750. HEMP—Manilla is in better request, without any improvement in prices, however; sales of \$600 bush, ex Eastern Star, at \$1600 bush Prime White for export at 750. HEMP—Manilla is in better request, without any improvement in prices, however; sales of \$600 bush, e

Thressed, 6 menths

HIDES are in moderate request at steady prices; sales of 1,000 tenns Ayres Kips at 25c., less 4 F cent cosh; 700 Maracalho at c., 6 mos.; 1,000 Western Shughter at 9cc., cash, and 40 bales elected Bullatio to arrive, and 10 bales do on the spot, on pri-

ate terms.

HOPS are in moderate request at 14c. for first sorts 59's.

HAY—The supply is increasing, and, with a fair demandrices favor the buyer at the close; sales of 1,200 bales at 80 020.

100 fb.

IRON-Scotch Pig is dull and lower; sales of 200 tuns ex ship #24 10 \$\pm\$ tun, 6 mos., but job lots from yard command \$25\$ 25 50. Other kinds sed slowly at previous prices.

LEATHER—We do not notice any change in either Hem-

lock or Oak. LiME-Rockland is quiet at 90c. for Common, and \$1.35 for Lump.
MOLASSES—There is quite a moderate inquiry; sales of 50
bloks, Porto Rico at 32c., 30 bloks. Muscovedo at 30c., and 175

MOLASSES—There is quite a moderate inquiry; sales of 50 hbds. Porto Rico at \$22., 30 hbds. Muscovedo at 50c., and 175 bbis Now Oriesna at 476 475c.

NAVAL STORES—Spirits Turpentine is dull, and prices are again [c. 4 gall lower; the sales comprise 30 bbis, merchantable at 46c; 200 do. shipping at 45c., and 50 do. in prime order at 47c., cash; the latter an extreme price. Crude is in limited demand at \$3.55 \( \frac{1}{2} \) 200 Bb. Common Rosin is in fair request at the decime; sales of 2,200 bbis, to arrive at \$4.67 \( \frac{1}{2} \) 30 Bb. Common Rosin is in fair request at the decime; sales of 2,200 bbis, to arrive at \$4.67 \( \frac{1}{2} \) 30 Bb. Tar is more active at saidy rates for Winnington, sales of 1,200 bbis, to strive at \$2.75, hiled in order in yard, as it runs.

OLIS—Lineed is in good request, and prices tend upward; sales of 7,000 gallons, at 58c., and 30,000 do., at 59,450c., part deliverable the first week in Aprill. Crude White is in immed design and the 30 do. 3

50 tuns City Thin Oblong in bbls at \$30 50, cash.

PROVISIONS—The Pork market is ag-in firm, but the demand is limited; the advanced prices asked check the consumptive inquiry; the sales are 1:250 bbls at \$15 for new Mess; \$17.25 for old do.; \$17 for thin Mess; \$12.37 ag-\$12.75 for old Frine; \$14.250 gbl 31k for new do.; a sale of 1,550 bbls. Mess is reported for May and June delivery at \$18.25. Beef is framer and in fair demand for the trade and the Flast; sales of 310 bbls. at \$10 cm for for country Mess; \$90.810 t0 for reparted Mess, and \$110 ag-\$12.50 for extra. Prime Mess and India Mess are dull and heavy. Beef Huns are plenty and heavy; sales of 287 bbls. at \$12.50 ag-\$15. Lard is freely offered and is heavy; sales of 34 bbls at 160 alle. And choice at 11c. Baon is wanted at \$450 lbls. at \$12.50 ag-\$15 for extra. Prime Mess and make yet sales of 34 bbls at 160 alle. And choice at 11c. Baon is wanted at \$450 lbls. at \$12.50 ag-\$15 for extra. The sale of \$15 bbls. at \$15 bbls. at 160 alle. Barter is in fair demand and at a steady; sales of 731 hbds. and tes at \$60 lbls. There are moderate at \$2.00 ab. Batter is in fair demand and is plenty at 11 lable, for Ohio and 13 22ds, for State—the latter for choice old. Cheese is in reduced supply, and is broyant at \$9 do 100.

RICE is quiet; sales of \$250 tcs. at \$4.00 \$1

SPELTER is in limited demand; sales of 35 tuns Silesian, at SPELTER is in limited demand; sales of 35 tuns Silesian, at 5;45 Sec., 6 mouths—the latter an extreme price.

SELDS—The market is beary for Chovet-Seed; sales of 120 bags at 76 Tele, and small lots at 76 Mec. Timothy-Seed is in moderate demand at 48 35 Tele 5 bals. Or though Seed is in moderate demand at 48 35 Tele 5 by bush. Or fleaped Rough Flax-Seed is quiet at \$1 500 \$1 60 \$7 bush. Or fleaped Rough Flax-Seed is quiet at \$1 500 \$1 60 \$7 bush. Or fleaped Rough Flax-Seed is quiet at \$1 500 \$1 60 \$7 bush. Or fleaped Rough Flax-Seed is quiet at \$1 500 \$1 60 \$7 bush. Calcuts Linseed is in moderate form, on the spot, ex Elandina Dudley, were resold at \$1 50 \$7 bush., cash. An offer of \$1 72 was n ade for a cargo here, and reduced.

TEAR—The market is steady, with a moderate demand for Blacks. Greens are quiet. The auction sale this merning was of fair size, and went off at fall previous prices, but a goodly portion was withdrawn in anticipation of still higher rates. The prices obtained were as follows: Hyson 343 0570; Young Hyson, 310 070; Outnoy 50 000 prices obtained were as follows: Hyson, 343 0570; Young Hyson, 310 070; Outnoy 50 000 000; 10 000 000 prime at 10 1, and 4,000 lb do. at 10 1, packages at 12 10 000 lb prime at 10 1, and 4,000 lb do. at 10 1, packages at 12 10 000 lb prime at 10 1, and 4,000 lb do. at 10 1, packages at 12 10 000 lb prime at 10 1, and 4,000 lb do. at 10 1, packages

ONITAL
WILISKY—The market is quiet, there are buyers at 22jc., and selbers at 23c.
WHALEBONE is in moderate request at steady rates; sales of 1,000 fb short Ochotek at 30c.; 2,000 do. North-west Coast a 35c., cash, and 2,000 do. South Sea on private terms.

Albany Live Stock Market. (Reported for The New-York Tribuns)

(Reported for The New-York Tribuns)

CATILE—The market opened brisk, and holders asked an adsace of ##\$\frac{1}{2}\text{c}\$. Where Almark, March 26, 1890, asked on a few instance at the opening an advance may have been obtained, but the heavy receipt—nearly 600 heat more than last each—have checked operations, and the market is now, at the ose, not much better than then—none at all, in fact, on the weet grades. The quality is not above medium, while there are any carse, heavy lots, with three or four small droves of presum.

BECSETTS—The following is our comparative statement of receipts at this market via the New-York Central Railroad:

This week. Tot since Jan 1

Hous-We have nothing to report.

MILLER Cows are in light request at \$2867\$45 each, calf included.

BOARD OF TEN GOVERNORS.

This Boardheld its regular semi-monthly meeting yesterday afternoon at the Rotunda, President PINCKNEY in the chair. Absentees, Townsend, Smith, Dugro, and Lynch. On the Believne Hospital requisition 800 feet of hose was called for, costing about \$500 or \$600. Some time ago the subject came before the Board, and Some time ago the subject came before the Board, and a Committee was appointed to wait upon the Common Council and see if the Board could not obtain the stequate supply of old bose, in order to economize. Some discussion enseed upon the matter. Mr. Gunther asserted that it was absolutely necessary that they should have a quantity of hose at Believue in order to cleanse the sewers, and put out any fire that might occur in the dome or dormitories. He suggested, however, that the quantity be cut down to 400 feet, and 200 feet be placed upon two rollers at each end of the ground. Mr. Oliver though 200 feet would be sufficient, and moved that the requisition be cut down to that quantity.

The President thought that if they had ever so much hose they could not get water to the dome or

Mr. GUNTHER differed, as he had been a member of the Fire Department, and there was no doubt but that a hydrant would throw water to the dome. Two hundred feet, he thought, would be of no use.

After further debate, the Supply Clerk was ordered

After further debate, the Supply Clerk was ordered to purchase 200 feet.

A communication was received from Mr. Drew, Soperintendent of the Work-House, setting forth that the services of a "bose mason" were so frequently needed since the resignation of Mr. Renton, that he was compelled to ask for the privilege of appointing one, or that some change could be made whereby a mason could take the place of one of his present keepers (of which, however, he said he had none too many). There was much repairing to be done to the buildings and in the construction of a sea wall, and he believed that the men would work better under a Superintendent. Some of the members thought that men enough

could be found upon the Island to take the place, while others thought it a dodge to saddle the Board with a new man. The matter was referred to the Committee others thought it a dodge to saddle the hoard with a new man. The matter was referred to the Committee on Work House.

Two communications were received from Dr. Ranney, Resident Physician on Blackwell's island, stating that he had discharged James Dodd, engineer, and appointed in his place Bernard Gormley, and that he had appointed James Sout as gardener, in place of John Stephens, resigned.

Communications were received from Warden Crasto of Egadell's Island appointing Eugene Ebling as

Comminications were received from Warden Crasto of Randall's Island, appointing Eugene Ebling as keeper, in place of Charles Crofut, resigned; and C. B. Loeell as farmer, in place of James McGinney, discharged. Also, from Superintendent Kellock, appointing Anthony Furer as door-keeper, in place of Godfrey Kiefer, resigned.

A communication was received from Wm. Jay Haskett, President of the Board of Excise, informing the Board that there was to their credit, and subject to their draft, in the hands of the City Chamberlain, or County Treasurer, \$2,960 naid over to said Chamber. County Treasurer, \$9,960 paid over to said Chamber-

lain, by the Commissioners of Excise, for license granted for the year 1859. granted for the year 1859.

A letter was received from Felix Campbell setting forth that having commence t business for himself, and being anxious to have a model gas works to refer to, proposing to build gas works sufficiently large on the llevue-Hospital grounds at his own exper light the present and any buildings that may be erected in future on the Hospital grounds, and to manufacture gas for one year, at a cost not to exceed one-half the present expense, or to furnish gas of a superior quality to that furnished by the Manufacturing Gas Company at \$125 per 1,000 feet. If the works do not manufacture the gas as agreed, he offers security to remove them at the end of the year, but if satisfactory, the Board is to pay such sum as may be agreed upon for said works.

for said works.

Mr. W. T. PINENEY thought the offer ought to be accepted at once, as it would effect a saving of \$4,000 per year.

After some discussion the matter was referred to the Committee on Bellevne Hospital with instructions to advertise.

The Committee on Island Hospital, who were in

structed by resolution of the Board to receive propos-als for heating and ventilating said Hospital in accord-ance with the plans adopted, reported that the follow-ing proposals had been received for the whole building: Hunter & Keller, \$16,300; Felix Campbell, \$16,894;

James O. Morse & Co., \$17,575; Charles Coates \$19,-473; J. & T. Donaldson, \$20,500; Blake, Weelock & Co., 25,438; New-York Steam Heating Co., \$34,000, exclusive of the west wing (the largest). The Committee effered for adoption a resolution awarding the contract to Hunter & Keller.

Mr. OLIVER said that it was anticipated in THE

TRIBUNE that there was corruption in the giving of this contract, but he presumed the action of the Board

would prove that part of the statement directly and Mr. Maloney said they had now introduced this heating apparatus in Bellevue Hospital, and he would cheerfully vote for the proposition.

Mr. B. F. PINCKNET said it had been tried in Wash-

ington, and had failed. They would find next Winter, if it was adopted, that the building would be so cold that they would have to put in new pipes at an extra

expense of perhaps \$30,000.

Mr. Oniven said that, although it might have failed in Washington, it had been successful in our public Mr. B. F. PINCENET said it had never, to his knowl-

Mr. OLIVER said he would vote for it, and throw the sponsibility on the architect.
Mr. Brueninghausen was in favor of the motion.
The matter was tabled, and made the special order

r the next meeting. Resolutions were adopted that the Superintendent of

Resolutions were adopted that the superimendent of Out-Door Poor be directed to stop donations to pen-sioners on the 1st day of April next, and that no out-door relief be given, except in cases of sickness, old age, or such cases as in the judgment of the Superim-tendent may require assistance; also, that the Visitors and extra Cierks have until the 15th of April proximo to write up their books and settle their accounts.

The report offered at the last meeting of the Board relative to the appropriation of \$2,500 for repairing the City Prisons was taken up and adopted.

A communication was received from Mr. Lelle, ask-ing the privilege of employing the females in the Work-House to sandpaper pipe. Referred to Committee, with power.
The weekly statement is as follows:

## CITY ITEMS.

OLD BOWERY THEATER. - There has been no greater favorite on the Bowery boards for very many years, if indeed there ever was, than Mr. E. Eddy. His return to the scene of his many successes is always the signal for crowded houses, the occasion of much cheery enthusiasm on the part of the audiences, and the subject of much joy to those who have the treasury in keeping. Mr. Eddy laid the foundation of his hardly-earned reputation in the Bowery Theater; it was the place of his maturer tragic efforts, and though of late years he has been much absent from those boards, the audiences freely forgive his frequent desertions, and always give him the heartiest welcome home.

On Monday night, Mr. Eddy gave the initial one of a series of his best personations which he is about to undertake at this house, before an audience as liberal in numbers as it was demonstrative in applause. The play was "Jack Cade," and last night he enacted 'Hamlet." For so many years was this a favorite character of Mr. Forrest's that there arose a popular superstition that only he could give a fitting delineation of the turbulent rebel. The drama in which Mr. Eddy enacts the hero is not identical with Mr. Forrest's version, having been adapted by Mr. Eddy from the original tragedy by Judge Conrad of Philadelphia. The alterations are, however, unimportant, and the play is, to all unprofessional and untechnical eyes, the same with which the New-York public have been for years familiar.

It has never been printed, and of its strictly literary merits we have no means of carefully judging. It is called a tragedy, though it is to all intents and purposes a melodrama. The hero is of the sturdy, ragged style of characters, which Mr. Eddy is best calculated to act, and in which he makes the most marked successes. His personation of "Jack Cade" is bold, vigorous, forcible, and telling. It decidedly ranks among the first of his tragic delineations, and is so good that it should be repeated. By all means, Mr. Manager, give us "Jack Cade" again. The "Hamlet" of Mr. Eddy last night attracted another crowded house.

P. T. BARNUM IN THE TOMBS. - The final blow at the fortunes of the great showman, P. T. Barnum, was administered yesterday. After having lost the whole of a princely fortune, after struggling through misfortunes and adversity at home and abroad for five years, after undergoing all the hardships that have been thrust upon him, he had flattered himself that he was once more about to retrieve his fortunes through the means of the Museum, when yesterday he was locked up in the Tombs. As if to add to the indignity heaped upon him, he was locked in the same cell which contains Albert W. Hicks, alias William Johnson, the alleged murderer of Captain Burr and the Watts boys, about whom there has recently been so much excite ment. Mr. Barnum bore his imprisonment well, and not only appeared contented, but, happening to have an artist with him, they set to work, and in forty-five minutes had a complete and perfectly natural cast of Johnson's head and face.

Mr. Barnum is about reopening his Museum, and is making great exertions to obtain new and interesting attractions. Thinking that the noto ious Johnson was a fit subject for his collection, he conceived the idea of a plaster cast, and it was for this purpose that he was locked in the cell with him. Johnson seemed pleased with the idea of being done up in plaster for admiring crowds to gaze upon, and sat perfectly quiet for fortyfive minutes while the plaster was "setting" on his face. On its being removed it was found that the artist had succeeded in getting every feature perfectly, and promises to have an excellent likeness ready for the opening of the Museum on Saturday next. Johnson was highly pleased with this mark of atten

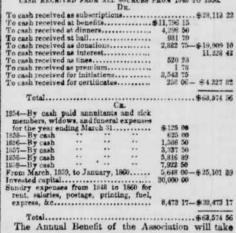

ion on the part of the great showman, and said that he was always fond of the Museum. On returning from his voyages he used invariably to take all his friends there, and he has no doubt but that he has spent over \$500 there. While Barnum was locked in the cell Mrs. Johnson came to see her hushand, but was obliged to wait until the artist had concluded his labors. Barnum also intends procuring a cast of the Chinaman, Jackaloo, the supposed murderer of the captain and mate of the Spray.

Dr. Hiram Cox's lecture at the Cooper Institute his evening will not be forgotten by the lovers of good

A letter entitled "Sporting News from England," which appeared in our columns yesterday was taken from Wilkes's Spirit of the Times and should have been credited to that paper. It was, however, signed by Mr. Wilkee, the cleverest and liveliest writer connected with the sporting papers of this country.

AMERICAN DRAMATIC FUND ASSOCIATION .- The Trustees of this Association present the following statement of the receipts and expenditures of the Fund since its organization. They say that the excessive yearly increase of claimants has greatly cramped their resources, and that the most strenuous exertions will be required to meet the demand:

CAND RECRIVED FROM ALL SOURCES FROM 1848 TO 1850.

place at the Academy of Music on the 17th of the en-

THE REV. DR. BERRIAN,-The Rector of Trinity Church is one of the oldest and most distinguished of the clergy of New-York. Sunday, March 13, completed a half century since he received deacon's orders in St. John's Chapel, in this city. His half-century sermon, preached at St. John's Chapel on the anniver-sary, and repeated last Sunday at Trinity Chapel, was full of interesting details of the progress of the city and the church. At the time he entered the ministry, old St. George (Beekman street), Trinity, and St. Paul's were the only Episcopal church buildings in New-York. Now there are over fifty. Besides his labors in the pulpit, Dr. Berrian, during the last half century, has married 1,065 couple, baptized 2,300 persons, and attended the funerals of 2,500. His sermon will be repeated at Trinity Church next Sunday morning.

MINOR CITY ITEMS .- The Children's Aid Society sent out a company of more than 50 boys and girls to the West, yesterday afternoon. They were destitute and orphan children, who had found their way to the Society through various vicisaitudes of privation and suffering. All were well dressed, and delighted at the prospect before them of finding new parents and homes in the land of promise, where so many of the poor children of the city have been already located by this active benevolent institution . . . . The great " clearance sale" at Appleton's, announced some time ago, began yesterday afternoon, at 3 o'clock, and will continue from day to day until the whole catalogue of 1,700 lots is sold....The boss cabinet-makers are holding meetings, in order to form an organization to protect themselves against the demands of their workmen .... The last quarter's rent of the Long Island Ferry Company, formerly the Grand street and Peck slip Ferries, now united under the principal ownership of George Law, remains unpaid. The rent of these two ferries is \$36,000 per year, and the sum of

\$9,000, one quarter, is yot unpaid; to secure which, legal proceedings will be commenced.... During the year 1859 there were erected in the Six. teenth Ward 58 buildings; in the Nineteenth, 180; in the Twentieth, 116, and in the Twenty-second, 215 .... State street is being widened 14; feet on the west side, by removing the entire sidewalk next to the Battery fence....The dry goods retailers have caught the " aptown" movement. Mears. Edward Lambert & Co., who opened a retail branch of their jobbing establishment during the financial depression two years ago, and have maintained it ever since, have taken for their retail trace the beautiful marble store No. 581, just erected on Broadway, opposite the Metropolitan Hotel, and will remove to the new location shortly .... A special meeting of the Board of Aldermen was probably be called for this afternoon, when, it is expected, some nominations will be acted on .... The Free Episcopal Church in Fourteenth street, connected with, and partially supported by Grace Church, numbers 1,000 persons. Their present accommodations are too limited and they have resolved to build a new Church capable of seating 1,500 persons, at a cost of \$45,000 for lot and Church, and have raised \$10,000 toward it. They now ask assistance to the extent of \$20,000 .... Gen. Tom Thumb will pay his devoirs to the ladies at Hope Chapel next Monday .... We have been shown a pretty Republican Medalet, struck in oreide. It is calculated to do good service in the coming campaign. The Medalet has for obverse an A merican Eagle, with upraised wings. Legend: "Success to Republican Principles." The reverse is: "Millions for Freedom." "Not one cent for Slavery."

FATAL RAILROAD ACCIDENT .- On Tuesday more ing about 2 o'clock, an unknown man was instead killed by being run over by one of the New-Haves freight cars, at the corner of Broome and Mulberry streets. The deceased, it is supposed, was riding upon the rear platform of a car just ahead, and that falling on the track, he was run over before the horses could be stopped. The wheels passed over his right shoulder, side and arm, producing death almost instantaneously. Deceased was about 45 years of age, and was supposed have been a laborer. The driver of the car was detained to await the action of the Coroner. Coroner Schirmer subsequently held an inquest on the body, when it appeared that the driver was entirely blameless, and he was accordingly discharged. Deceased was asleep on the platform, and in no way belonged to the train. It was found that his spine had been nearly severed. A verdict in accordnuce with the facts was rendered. SWINDLING PARTNERSHIP ADVERTISEMENTS.

To the Editor of The N. Y. Tribune.

Sin: The recent exposure of the proceedings of

some enterprising partnership advertisers in this city, ought to have, and no doubt has, been of service, as a warning to the mewary. Perhaps the following narrative of an experience among that distinguished fraternity may not be without use as an additional cartim: In the mouth of February, 1857, there appeared in the columns of a New-York evening journal, a specious advectisement for a pertner in "a spiendi! manufacturing business". thement for a perner in "a phenoit in manuactum, outside in profits large"—" sales unlimited"—capital required under three thousand dollars. A friend of mine, then just arrived from Barope, possessed of a few thousand dollars, auxious to embark is business, and altogether ignorant of the "traps and tricks of New-York City," unfortunately for himself, had his attention directed to this it teresting amnouncement. He sought an interview with the advertiser, and found him as plansible as the advertiser. ment—only more so. The "aplendid" business was to consist in the purchase at a very high price of a patent for this State, and the purchase at a very high price of a patent for this State, and the catabilishment of a manufactory under that patent of an article in general use. The advertiser had been out of business for some time—was desirous of resuming operations forthwith—bad investigated many of the chances daily offered to enterprising business men, and had selected this as the most promising of them all. He had half the requisite capital at command—the figures ready showing the extent of prospective sales, and the enormous profits to accuse therefrom, and his references "all cut used dried." Truth, it is said, must be sought in a well. In this case the modern Edwards was discoverable in a Pump.

Truth, it is said, must be sought in a wall. In this case the modern Educards was discoverable in a Pump.

Plausable, however, as the advertiser was, and satisfactory as his figures appeared to be, my friend was not quite green enough to take the alleged facts and figures for granted. But, the references? Well, they were seen, every man of them—and their united testimony to the high character of the advertiser; to his business ability, his honesty, his perfect reliability, his unimpeachable veracity, was, as Mr. Peggotty would say, "oncommon." The result was, my friend became fully persuaded that, if his future partner was not exactly an angel, he was at least, next deep to a cherubium, and was taken in and done for accordif his fature partner was not exactly an angel, he was at least, next door to a cherubine, and was taken in and done for accordingly. His money was invested, and the patent bought of another "amant" genius, closely associated with the advertiser; but, whether the latter ever really paid one cent of his supposed share of the purchase money is exceedingly doubtful.

Operations then commerced, and the truth speedily dawned upon the mind of my friend—that the patent and the "spleadid business' were alike worthless; that his money was irrecoverably lost, and he himself associated with a sharper. Of course, this was a connection to be terminated at all hazards, and at any cost.

But how? The patent was unsaiable at any partial advertising partner, who had nothing to offer in exchange except Western lands, which might, or might rat be a myth. Then followed a further display of his ingenuity. Lie upon its, trick upon lower to the obtain possession of the patent. But how? The patent was unsalable at any price, save to the trick, were had recourse to, to obtain possession of the pa fixtures, and clock, either without any payment, or for paper would not sell on Wall street at six per cent. Ultimately, after trouble and annoyance apparently interminable, my friend, feeling assured that the patent was utterly valueless, and that the Western lands might be better and could not be worse, accepted what purported to be a deed for a considerable trust of the latter, and thus got rid of his exemplary partner, the invaluable patent, and

thus got ris or me exemplary partner, the invariable patent, and its "spiendid" business, at once and forever.

Subsequent investigation showed that the Western land referred to had been already located for forty years; that the title-dead was not worth the parchiment it was written upon; and that possession of the tract conveyed by my friend was as likely to be ob-

tained as possession of a tract in the snoon.

Legal advice was taken, but no redress could be had, except as a considerable further sacrifice of money and time, and the result then uncertain. Potent to protect the worthless caress of this unprincipled knove from the just vengeance he had provoked, the law was powerless to redress the wrong, or punish the wrong-

doer.

Successful in making this raise, the same impudent ecamp is now advertising for a partner in another business—plausible, as before—snug and safe business. Safe to awallow every cent in-vested in it. Very little capital required; only the small fry accidapply—wants "the man more than the money." Some three months ago, a loan of \$50 was "wanted," in vain, from a man wa poor, but not as dishonest, as the advertiser himself. Commont is superfinous. All that can be done is for those who have suffered to put the unwary on their guard. But ignorance and inexperience abound, and knaves wander to and fro seeking whom they may devour. The only remedy for vermin of this description would appear to be New York, March 26, 1860.

FOUND DROWNED.—About 6 o'clock on Tuesday morning the body of a German was found floating in the river at the Battery. The deceased was recognized as a jeweler named Martin Betlier, who has been missing for several weeks. On his person was found considerable jewelry, and it is thought that he committed suicide. Coroner Schirmer hold an inquest on the body, which resulted in a verfict of "Supposed drowning."

FATAL FALL,—A man of intemperate habits, named William Holland, living at No. 21 Thomas street, while under the influence of liquor, fell backward down stairs, and was seriously injured. He was conveyed to the New York Hospital, where he died yesterday morning. Deceased was an Englishman, aged about 40 years.

A Young Thire.—A lad 15 years of age, named John Wilson, was arrested yesterday afterneon, charged with having stolen a set of cameo jewelry. Mrs. Dixon of No. 222 West Twenty-first street, who identified the property as here, saw the lad hanging about the premises, and new prefers a charge against him. Justice Kelly locked the accused up to answer.

REN-OVER ACCIDENT.—On Monday afternoon a lad-corner of Hudson and Hammersley streets. The unjectunate lad was so orionsly injured as to spuse his death on the follow-ing morning.

MERCHANTS FROM ABROAD, and STRANGERS IN

THE CITY, will find the Free Museum of Fowner & Wesse, No. 300 Broadway, just above the Park, an interesting piece to visit, as it contains busts, skulls, and portraits of the most nested men the world has known. Examinations made, when desired, showing the talents, defects, and proper occupation.
